1.0 INTRODUCTION

Data Monkey Limited was created as a full Media and ICT Solution provider and General Supply company. It was incorporated on 23 March 2016 as a Zambian company offering state-of-the-art Media and ICT Solutions.

The company was founded by Michael Munali. After having worked for Zambia National Broadcasting Corporation and Multi Media Zambia, he felt the call to establish a company that would provide Media and ICT services of high standard to meet the rising demand for such services.

Data Monkey Limited has vast experience in installation of television and radio equipment, Studio and outdoor Production of both video and audio products for television and radio transmission as well as for producing content for Social Media.

Our graphics section boasts of quality design works as well as printing services for corporate businesses.

Data Monkey Limited has supplied both Equipment and Consumables to both Government and Private Sector Institutions.

Directors

Michael Munali is the founder and Managing Director of Data Monkey Limited. His interest in media and electronics which later led him into ICT was cultivated during his formative years when he learned how to design and build simple radios using spare parts from broken down radios. Since that time he has gone deeper into the world of media and ICT electronics having studied radio and television repair and maintenance at Makeni Ecumenical Center in Lusaka, Zambia. He went further to study computer networking, web design and software development. Through his passion for the field, he has brought Data Monkey to top success.

Rodgers Mba is the director at Data Monkey Limited responsible for operations of the company. His business foresight has contributed to Data Monkey's resilience on the market and through his strategic approach to running business, Data Monkey has managed to stay afloat even in harder business times. He holds a Bachelor's degree from the University of Zambia and a master's degree in telecommunication from The University of Cape Town.

Abraham Munali is a director responsible for human resource and logistics. His experience in logistics and human resource stems from his vast experience in the aviation industry. He is a qualified aviation industry expert.

Daddy Chitalu, a seasoned and vastly experience technical Director, an expert in installations of television studios, radio studios as well as transmitters is responsible for management of technical installations. He has been at the center of design, installation and commissioning of most of television and radio stations in Zambia. He holds a plethora of qualifications from both international and local academic institutions posing as one of few Zambians with unmatched academic qualifications and practical experience in radio and television.

VISION

To become world class agents for maximum human safety and enhanced human standard of living and creation of efficient work platforms.

MISSION

To create a modern data driven society by providing services that use fast swinging data technologies with Artificial Intelligence (AI) .

Environmental Sustainability

Data Monkey Limited understands that environmental sustainability is everyone's responsibility and as a local company, we are prepared to lead the way in this regard. We realise that a commitment to the environment is not just social responsibility but also a good business practice as we all as citizens of the global community seek to improve the environmental state of the world we live in for our own good and for the good of those yet to be born. For this reason, we ensure that our environmental policy is implemented throughout every facet of our business.

Simply put, our overall objective is to carry out our operations in a way which manages and minimises any adverse environmental impact and to prevent any pollution.
